Practice for the American Rifle Team Soon to Begin.

District Harksmen Will Probably Be Chosen to Compete for the Palma Trophy-Orders Issued for the Annual Inspection and Muster.

Marksmen of the District National Guard will probably measure their skill with representative riflemen of foreign The National Rifle Association has recelfed assurance that teams of twelve men each, from the armies of England. Germany, Switzerland, Canada, and Austraila, will be sent to Sen Girt to compete in the international match for the Palma trophy. The American team will probably number among its members several of the crack rillemen of the District. The great interest being manifested in the match is proof that rifle shooting is once more in favor, and prospects are that it will more than regain the high plane it

occupied a number of years ago,
Major Bell, Inspector General of Rifle Practice, has received a communication from the secretary of the National Rifle Association, informing him that instructions for the practice of candidates for the American team will soon be forth coming. The candidates for position on the team will shoot such distance and as many rounds as may be prescribed by the National Rifle Association. The scores will be certified and forwarded to

the headquarters of the association.

Probably twenty men who have made the highest averages will be chosen to go to Sea Girt and engage in final practice for positions on the team. Those making the highest scores will, of course, gain places and will meet the teams from other countries. Directions as to when pracbut it is not likely that this practice will begin until some time after the Ordway range is ready for practice. The distances at which practice for positions or the American team will be conducted will be 800, 200, and 1,000 yardh.

The gallery practice will practically be completed when the regimental match at 600 yards, the Burkhart match, and the special matches are completed at the end of this month and during the first two weeks in May. It is, however, the inten-tion of Major Bell to set aside a night on a date to be fixed later for each battalion when the men may complete their scores. Those who have not completed practice will thus be given an opportunity to make up the loss before the outdoor practice

begins.
The match for the Burkhart medal will take place Friday evening, May 2. The contestants will be these officers and men than forty-five in the first match when they have shot at each stage of the indoor matches. Ten rounds will be fired at 200, 200, 500, and 600 yards by each marksman.

On Friday evening, May 10, there will be a special match between the officers and men who have made the highest individual scores in each match at the various gauges. An innovation in practice at the Ordway range will be the introduction of velley firing. Silhouette figures will be used. The squads will fire three rounds at 500 yards, then advance and fire the once more to a distance of 100 a cas and fire four rounds, making a total of ten rounds. The repairs at the range are about completed and practice will begin about the middle of May.

able Merit.

A new catarrh cure has recently appeared which so far as tested has been remarkably successful in curing all forms of catarrh, whether in the head, throat bronchial tubes, or in stomach and liver. The remedy is in tablet form, pleasant and convenient to take and no special secrecy is maintained as to what it contains, the tablet being a scientific combination of Gazáneoi, Eucalyptoi, Sanguinaria, Hydrastin and similar valuable and harmless antiseptics.

The safe and effective catarrh cure may be found at any drug store under name of Stuart's Catarrh Tablets.

Whether the catarrh is located in the cose, throat, bronchial tubes or stomach, the tablets seem to act with equal success

tose, throat, bronchial tubes or stomach, the tablets seem to act with equal success, removing the stuffy feeling in head and nose, clearing the mucous membrane of throat and traches from catarrhal secretions, which cause the tickling, coughing, hawking, and gagging so annoying to every catarrh sufferer.

Nasai catarrh generally leads to ulceration in some cases to such an extent as to destroy the nose entirely and in many old cases of catarrh the bones of the head become diseased. Nasai catarrh gradually extends to the throat and bronchial tubes and very often to the stomach, causing that very obstinate trouble, catarrh of the stomach.

stomach.

Catarrh is a systemic poison, inherent in the blood, and local washes, douches, salves, inhalers and sprays can have no effect of the real cause of the disease. An internal remedy which acts upon the blood is the only rational treatment and Stuart's Catarrh Tablets is the safest of all internal remedies, as well as the most convenient and satisfactory from a medical standpoint.

camp of the District Guard might have been in part satisfied. Several of the officers of the Guard, including the general commanding, had planned an expedition in the country adjoining Washington to look for a suitable site. But it rained so hard that the trip had to be postponed. In all probability the location will be settled about May 1.

The proposed trip to the Pan-American Exposition at Buffalo seems to be gaining favor steadily. There may be enough members of the Guard willing to attend to make up a procisional buttallon, and possibly more. As yet the matter is in an embryonic state. Enquiry is being made regarding rates and accommodation. If the Guardsmen go it will be independently, and each man will defray his own expenses. The trip will not be made until after the encampment, and probably not sooner than September.

The trouble which recently broke out in Company D. of the Fifth Battalion, between Capt. F. Penrose Smith and certain of the members of his company will culminate during the coming week in the transfer of six members of the company to other companies. The order which directs the transfer has not yet been published.

The Attorney's Advice Against the Cancellation of Taxes.

The Grounds for the Application Not Considered Sound-How to Dispose of Ashes, Tin Cans, and Other Waste - To Use the Water Tower.

Andrew E. Davall, Attorney for the nitted to the Commissioners an adinion upon the application of A. and Cora T. Hines for Charles the cancellation of general taxes for the years 1883, 1886, and 1889, against part of lot 21 and lots 22 and 23 of the subdivision of Friendship. The Attorney stated that the claim of the applicants that these taxes should be canceled should be denied. In connection with the

rantter, Mr. Duvall says: all taxes and assessment against said property from a clerk employed in the office of the Collector of Taxes, stating to him a willingness to pay any taxes then due or overdue and that said agent was informed by said clerk that, excepting the taxes due for the current year, there were no unpaid taxes against the prop-

are prescribed by statute, and he is not required to make search or furnish state-ments of unpaid taxes. And the Supreme successfully used Stuart's Catarrh Tablets in old chronic cases, even where ulceration had extended so far as to destroy the septum of the nose. He says: "I am pleasantly surprised almost every day by the excellent results from Stuart's Catarrh Tablets. It is remarkable how effectually they remove the excessive secretion and bring about a healthy condition of the mucois membranes of the nose, throat, and stomach."

All druggists sell complete treatment of the tablets at 50 cents and a little book giving the symptoms and causes of the various forms of caterrh will be mailed free by addressing F. A. Stuart Co., Marshall, Mich. Court of the District of Columbia held that his statements and mistakes in reeffect of the certificate of the Assessor

effect of the certificate of the Assessor under said act of Cengress in respect to omitted taxes.

"The second ground for cancellation is the claim that the taxes are not collectible because of the failure on the part of the District to file a bill in equity to enforce its lien for taxes within a reasonable time after two years after the property was bid off by the District at the tax sails.

"The law, however, does not provide that the penalty for not so enforcing the lien of the taxes by filing a bill in equity should operate to release the lien for such taxes."

William T. Belt, Acting Chief Engineer of the Fire Department, has reported to office whence he was sent to No. 1 police station and examit of by the police surgeons.

Later in the day Barker was sent to the Government Hospital for the Insane.

Barker arrived in Washington Weiners day right from Morgantown, W. Va., his former home, and says that he has been stopping at the Sherman House shore then. Thursday morning he was arrested by the police of the Sixth precinct on a charge of dumkenness, but was released about a o'clock in the afternoon. He says he was formerly a lumberman in West Virginia. In his possession are several books showing that in 18th and 18th he carried large halances with the Second National Bank and the Mononganeia Valley Bank, both of Morgantown. About it we scars ago, shortly after he was appointed "Duke of the United States," he, according to his group was placed in an insane asymm at Weston, W. Va., from which he escaped forty days later.

He states that former Postmaster General Wilson and ex-Vice President Stevenson raised a fund of \$20,000 for him, which was largely contributed to by Andrew Carnegle. Barker says this money was placed to his credit with Cashier Combis, of the Second National Bank, of Morgantown. This money, Barker declares was stolen from him by a Pittsburg man. He says efforts have been made to posson him over 500 times.

Barker claims that he is a brother of J. A. Barker, the where of a lumber mill near Ridgedale Postoffice, W. Va., and of Dr. David H. Barker, of Reedly, W. Va., He says he also has two sisters. He is a fine-looking man, well divessed and converses railonally on most subjects. Commissioner Macfarland that he
